

Norway-Svalbard

SAILSHIP ARCTICA 2 (aug 2018)

the sailship "arctica-2" is pretty new, and it has a strong engine, thus it's not dependent on sailing when on the move. the ship has 4 cabins, each with three beds, and thereby can handle 12 passengers. its kitchen is quite mighty.

the sails are large, and the ship can undertake pretty wild sailing.

the arctica-2 is equipped with two dinghies = rubberboats. these are used for landings. the passengers need to have rubber shoes and rubber trousers when walking to the land.

and at the end of each excursion, after getting out of all the equipment, lunch or dinner is ready, including wine!
